Subject: clearance of abstracts in ICCVAM report

Maureen and Mike,

Have you guys seen/cleared the various abstracts that were compiled by NICEATM? I was told by Anna that some were pulled from public sources while others were submitted by EPA. I'm assuming if they were pulled from public sources, they were cleared at one time. What I don't know is whether the ones submitted by ORD staff were cleared. If not, I'm assuming we probably should clear them.

Rusty
